Portable speaker **Super Bass**

This high quality portable speaker full-metal housing enables you to enjoy your favourite music anywhere and anytime!

Due to the integrated battery you are independent from the electrical outlet. Just simply connect your PC, laptop, MP3 player, ipod/iphone/ipad, smartphone or phone to the speaker and you're ready to go. Low-frequency enhancement and anti-breaking sound's technology provide excellent performance. Moreover, the speaker is based on a patented sound technology and on a special acoustic design structure which uses air compression to boost sound quality. With this, the product is able to produce sound at the highest volume without any distortion, while maintaining music quality at the lowest volume.

Water Beats

The special water-light-action gadget for your PC!

You want more than a simple speaker?

If so, the ednet WATER BEATS is a great and splashy alternative. You can connect this speaker easily to your PC, Smartphone or any other device with an 3,5mm audio output. There's no need for extra batteries, you just have to use the USB power cable and thus create a great spectacle of water and light. The generated water fountains fit to every different beat and thanks to the four different bright colors, "Disco feeling" is coming up at home!

Perfect stand to watch movies, pictures, presentation, etc.

The ednet Tablet stand gives your tablet/ebook reader/smart-phone by the applied rubber coating, which also protects the placed tablet against surface damages, a secure footing. Moreover you can adjust the width of the stand optimal to your device, because of its folding hinge. If you want to show movies, pictures or presentations in portrait format or landscape format is quite in your discretion. Other advantages of the stand are the size and the low weight. Folded together it disappears easily in your pocket and can be carried along anywhere.
