

What is it?

The Silhouette CAMEO™ is an electronic cutting tool for personal use. Like a home printer, it plugs into your PC or Mac® with a simple USB cable. However, instead of printing, the CAMEO uses a small blade to cut your designs into a wide array of materials.

Print full-color images on your home printer and cut them out with your CAMEO

Cut fonts already installed on your computer

No expensive cartridges to buy and store—only purchase the individual designs you want

Silhouette Studio® design software included

Download new designs anytime from the Silhouette Online Store

Cut a variety of crafting materials from vinyl to fabric to cardstock

Replace your blade holder with a Silhouette sketch pen to sketch digital designs

Easily adjust your designs and text to cut as small as 1/4" and up to 12" wide and 10 feet long

Included in the box:

- Silhouette CAMEO™ electronic cutting tool
- USB cable
- AC adapter and power cable
- \$10 download card

- Silhouette instructional DVD
- Silhouette Studio® design software
- cutting mat
- adjustable blade
- 50 exclusive digital designs
